To: Construction Committee  
From: Gerry Ryan

Just a few words to bring you all up to date as to what is happening with the Parksley project.

The Board of Trustees has approved a budget which was developed according to the letter of agreed fees of the Architect as well as the expected schedule prepared by the architects. A copy of each is attached.

Representatives from the ESPL Foundation, ESPL Board of Trustees and the Architect firm are scheduled to meet with the Accomack County Board of Supervisors on Wednesday, September 20<sup>th</sup> at approximately 5:00 pm. Unfortunately, I will be out of the country and not able to attend.

Asbestos removal is complete. There is not electricity available to the building at this time. The physical and topographical survey is in the process. The geotechnical exploration will soon follow the completion of the above survey.

Director Cara Burton continues to meet with interested parties regarding the internal design of the building. As soon as something concrete has been developed, it will be brought to this committee for review.

An AIA contract should be available shortly for your review.

Representatives from the ESPL BOT and the ESPL Foundation continue to meet with Mike Mason and staff regarding the financial aspects of the project.

Rumors aside, Jeb Wilson and Stuart Hall remain on the committee but because of conflict of interest, will not be voting. We will still have access to their expertise.

That pretty much brings you all up to speed. Should you have any questions, I will remain available via email or text while traveling.

Thanks for your continued participation and support of the Parksley project.

Gerry Ryan
