How to Use Freading eBooks

Basic Instructions

1. You need to have a **valid library card from Eastern Shore Public Library and you need to know your PIN**. You can enter the Freading site either from the web at freading.com or via the Eastern Shore Public Library web site.

2. You need to decide **what device you will use to read the eBooks**.   The most popular devices that are compatible with Freading eBooks are:

Any computer or laptop running a Windows or Mac platform with at least a modest hard drive, some free RAM, and a browser that has been updated in the past year or two. Major browsers such as IE, Safari, Firefox, and Chrome will show the site just fine.

The **nook family of devices from Barnes & Noble**. The nook devices are not compatible with direct wireless downloading of Freading eBooks, but they accept transfers from your PC or Mac through a simple process.

The **Apple iPad® and iPhone®**. The Freading eBook service has a free application in the Apple App Store which you can download. Accessing content is easy, you just hit "get books" at the bottom of the app. **Note: with Adobe Digital Editions (the DRM software) you must do a one-time activation of your device.

Most Android™ based tablets and phones. We say "most" because some devices are Android based, but do not allow access to the full Android App Market, but only a subset of that store. The Freading eBook Service has a free application in the Android app Market, and tablets that allow you to download the app include tablets from Motorola, Sony, Samsung and Acer, among others. Downloading is possible from within the Freading Android App.

The Kobo Ereader and Vox tablet. The Freading App is in the Getjar App store.

The Kindle Fire, but not other Kindle Devices. The Kindle Fire accepts 3rd party apps through a few extra steps.

The Chromebook, but you must install the Freading and Adobe Digital Editions apps. Both are available for free on the Google Play Store.

3. If you use a mobile device, you will need an Adobe ID in order to activate your Freading app for use. If you do not already have an Adobe ID, you can create an ID by visiting the Adobe website through a web browser as described in the next section. (eReader users (Nook, Sony Reader, Kobo) will also need an Adobe ID in order to utilize the Adobe® Digital Editions software on their PC. If the eReading device is not compatible with the Freading app (Nook, Sony Reader, Kobo), then the eBooks will need to be transferred from their PC to their eReader through the Adobe Digital Editions software.)

How to Download Adobe Digital Editions to Read Freading eBooks

Download Adobe Digital Editions at:

https://www.adobe.com/solutions/ebook/digital-editions/download.html

Also, please make sure that you have **an Adobe ID**. If you do not have one, you may create by going to **"Get an Adobe ID"**at: https://helpx.adobe.com/in/manage-account/using/create-update-adobe-id.html

How the Apps Work

1. Login. You are now connected to your library's Freading site and can get books.

2. Download a book. You may be asked to "authorize" your device, which means you must login using your Adobe credentials when prompted.

3. After downloading, you will be able to **read and navigate the book in the Freading app**.

Checkout Period for eBooks

You are allowed **3 checkouts each week**. Any unused checkouts are rolled over to the next week (to a maximum of 6 checkouts).

The Adobe Digital Editions software will limit your access to each eBook for a **2 week initial period.** You can extend the loan period for one 2 week period by going back to the book display on the website and hitting the download button again. You will see that the token value has decreased since the initial loan. Most renewals are free.
